General Food & Hygiene Instructions

General Food and Hygiene Instruction

One important concern that people have moving into a new country is how to maintain health of their family. Certain precautionary measures should be taken to insure that your family stays healthy. In preparing this section, conflicting procedures and recommendations were given. In all cases the most conservative procedure is suggested.

Drinking Water and Ice: All water must be boiled and filtered before drinking or using for oral hygiene. Filtering water before boiling removes sediments or particles, which can shelter microorganisms from heat. Bring the water to a boil for 15 minutes and then cool, filter and store in cool containers. This will effectively kill Hepatitis “A” virus and most bacteria. Cysts and bacteria are devitalized after a one-minute boiling roll.

Following boiling, cover the container with a lid and let the water cool. When the water has cooled pour the water into clean water bottles for storage. Do not filter the water after boiling as this can contaminate the water. Instruct your household helps to make ice from this source and not from the tap.

General Food & Hygiene Instructions

Meat and Fish: These should always be cooked thoroughly to prevent ingestion of tapeworms, trichinosis and other disease causing organisms. A pressure cooker is excellent for this use. Always be sure to purchase fish fresh. Most people do not eat fish in the monsoon season (June, July, August) since quality of fish cannot be guaranteed.

Salads, Fruits and Vegetables: All fruits and vegetables that cannot be peeled must be thoroughly washed and soaked in a solution of cold boiled water with a few drops of Chlorine bleach or Betadine or Potassium Permanganate solution for 20 minutes. These should be brushed gently with a vegetable brush or a soft cloth then rinsed in boiled water and air dry on drainer. Some expatriates recommend the use of a disinfectant, available at any chemist –primarily marketed to sterilize baby bottles and pacifiers, to sterilize food products as well. For all green leafy vegetables the leaves should be separated and soaked in a Chlorine bleach or Potassium Permanganate solution for at least 20 minutes and rinsed thoroughly in potable water.

Whichever procedure you follow be sure that your cook or kitchen help is trained to follow these procedures. It's a good idea to surprise check these procedures occasionally.

Pet Relocation

Moving to a new city, state or country can be pretty exciting, but it can also be very stressful. We recognize our clients' need for the safe and worry-free transportation of their four legged family members.

During air travel pets are housed in a pressurized air conditioned compartment, just the same as people travel in, only it is quiet and dark and the animals can sleep.

In Domestic flights of Indian Airlines your pet can travel in the cargo hold. The pilot should be informed in writing prior to the flight there is a live animal in the cargo hold and he adjusts the temperature in the hold for the same. Pets below 10 weeks of age are not allowed to travel by flight. The charge for your pet traveling on the aircraft depends on the weight of your pet and differs from airline to airline.

Housing

Types of Housing and prime expat locations

Neighborhoods in Bandra, Powai and South Mumbai are preferred by the expatriates while identifying housing options. Neighborhoods in "South Mumbai" like Peddar Road, Napean Sea Road, Malabar Hill, Altamount Road and Breach Candy still maintain their historical charm, but unfortunately do not have many modern housing options available. The neighborhood here is well planned and less congested. It has well maintained parks, which can be used by the children to play and the commercial vehicles has limited access to the inner roads of the area, making it pretty safe to walk around in the neighborhood.

Housing

In recent times a lot of expatriate population has ventured out to relatively newer neighborhoods in the western & northern suburbs of Mumbai like Bandra, Khar, Santacruz, Powai and Goregaon. These neighborhoods have the advantage of being close to the International Airport as well as to the various international schools. In addition to this, these neighborhoods are relatively closer to the satellite city of " Navi Mumbai ". The Expat localities have apartments style of accommodation. Some of the newly constructed apartments are well planned and luxurious with modular kitchen, modern fixtures, fittings and with various amenities such as club house, swimming pool, gym, indoor games etc.

There are designated green zones such as like The Sanjay Gandhi National Park close by to the northern suburbs of Mumbai where it is a pleasure to go for walks in the morning or evening.

Housing

Location plays a vital role in choosing the right place to live. Please consider the following carefully:

General Information

- Unfurnished apartment lack all basic household and kitchen appliances including air conditioners. These can be sometimes negotiated with landlord. Furnished apartments are very few and furniture is not always up to expat quality.
- There are very few Hotel service apartments in Mumbai. Though there are customized apartments but they are not expat preferred due to lack of amenities and low quality of furniture & fixtures.
- Temporary accommodation for few months in housing complexes are usually not available.
- Due to lack of space some buildings have open areas such as balconies or terraces, a garden is rare.
- A vacant property may not always be very pleasant at first sight since most landlord's do not start refurbishing until an agreement has been signed.
- Club house amenities may not be available in the same society complex.
- Check if the rental quoted is inclusive of apartment associated maintenance costs. Also, if the landlord is providing you with utility connections.
- The utility set up cost and the monthly rental and usage charges are borne by the tenant. The monthly payment will have to be made directly to the vendors. Please note that there is always a due date for making payments.

Housing

When considering a property, keep in mind the following:

- General appearance of the property and its location
- Layout of the property
- Condition of all electrical appliances supplied including air conditioners and washing machines etc.
- Provision for Electricity backup
- Water Storage
- Check humidity/mildew damage
- Is the telephone, internet line and gas connection provided by the landlord
- Is the landlord willing to provide the annual maintenance contract for the appliances

Before you sign a lease here are the things to consider

- There is no multiple listing available in India. There are handful of housing agents that represent various properties and have to be contacted individually to obtain a nearly complete listing of rental properties available. Typically there are two realtors involved, one representing the landlord and one represents tenant.
- Sometimes there could be more than 2 or 3 realtors involved in a particular housing transaction.

Housing

- Advance rents : 1 month to 6 months (can be negotiated in some cases).
- Security deposit: 3 to 6 month rent (negotiable) with advance rent as stated above.
- Short term lease not available, minimum lease length is for 12 months.
- Lock in and Diplomatic clauses – typically 1 year for a new high end property with one to two months’ notice for termination
- Tax payment: Tax withheld by the licensee on the monthly rental is anywhere between 10 to 30%.
- An increase in 5 - 10% in monthly rentals on completion on every year.

Other cost

- Local realtor commission is one to two month rent payable by tenant upon closing of the property depending on the property and location. Sometimes, the landlords pay half months to one month rent to the realtor.
- FG recommends registering and stamping the Leave and Licensing agreement at the stamping authority. The stamp duty at present is 2.5% on the average rent of whole term. It is mandatory to register the lease agreement in Mumbai and the cost of registration is borne equally by both the parties.

Furniture Leasing

- Furniture can be leased on short or long term contracts. A minimum 30 days time frame should be given to the vendor and an advance payment would be required to secure the delivery depending on the contract terms.

Housing

Household Assistance – Maid Services

Hiring household help is a common practice in India for both local and expats. This is a highly unorganized sector in India. The best way to identify household help is through references or from a repatriating family. The next option is to tap your resources at the expatriate networks, once you move into your house; the society office may assist you in finding a maid. There are a few local agencies that provide assistance in finding household help but they can be unreliable. As per their standards they have to conduct background checks and police verification but this is not accomplished in most cases. The concept of a nanny is not very popular and maids typically assist with child care once attuned and trained to the needs of the family. If you are an expatriate, the household help tends to demand more money as salary. It is also common for them to request you for a loan or small sums of money on a daily basis for traveling, food, etc. Please try and refrain from giving them money apart from their salary and festival bonuses. Always keep your valuables locked and supervise them as much as possible.

Service Apartments

The concept of service apartments is still in its infancy in Mumbai. As the demand for service apartments is on the increase and they are in short supply, it becomes absolutely necessary to book an apartment well in advance – FG recommend at least two to three months in advance.

Household Insurance

Although it is not possible for one to guard one's home and family from all possible risks, but one can take steps to help one tide over unexpected events which totally shatters one's life and dreams. Four public sector players and few private players offer household policy.

Who can apply for this policy?

This policy is suitable for all as a householder whether you are a landlord or a tenant. Policies can be issued for a maximum period of one year. You can choose between a comprehensive cover and a separate cover.

What it covers

Broadly, the policy insures you against loss or damage to your house and its contents, including jewellery and other valuables and domestic appliances, third party liability and even loss of baggage during travel. Some of the more important sections for which coverage is provided are briefly outlined below:

Fire and Allied Perils: Covers loss or damage to building and contents due to fire, lightning, impact, damage, explosion etc.

Burglary and Theft: Covers loss or damage to building and contents due to burglary or theft during normal course of occupancy and even if the house has been unoccupied.

Household Insurance

Audio and Audio Visual Appliances: A comprehensive coverage for your appliances like television covering or damage caused by fire, burglary and theft, mechanical or electrical break-down as well as legal liability up to specified amount.

Jewellery and valuables: Covers loss, destruction and damage to jewellery and valuables anywhere in India due to Accident and or misfortune.

What is in and what is out

- Damage as a consequence of war, invasion, act of foreign enemy, hostilities (whether war be declared or not) civil war, rebellion, revolution etc.
- Any damage due to confiscation, commandeering, requisition or destruction by order of any government or lawfully constituted authority.
- Depreciation and damage caused by wear and tear or gradual deterioration.
- Damage to property and contents due to pollution of any kinds.
- While declaring the value of the contents, one should ensure that there is no under insurance: In case the actual value of the insured property at the time of loss under Fire Benefit is found to be greater than the sum insured opted by you then the claim would stand to be reduced in the same proportion.
- There are some clauses under the policy which are subject to excess, in such a case the insured has to bear the specific proportion of excess. The excess is that part of the claim which the insurer shall not bear.

Household Insurance

What you should know when filing for a claim:

- When the claim is large one, the insurance company will send a surveyor to check the damage. This will either be an individual or firm licensed by the Insurance Regulatory Development Authority.
- Remember that whenever there are any claims, immediately inform your insurance company. Private insurance companies have toll free numbers. Besides informing the company on phone, make sure you inform the insurance company through a written letter to avoid any future hassles.
- In case of a fire, the fire brigade report is a must before filing any claim.
- If the cause of damage has been a flood or earthquake, you may have to prove that the natural calamity did occur.
- In the case of a theft, a first information report (FIR) from the police is mandatory. Further, the insurance company may want to wait till the police have given a final investigation report. You will have to prove that the burglary did not occur because of any carelessness on your part.
- Where goods are concerned, such as televisions and music systems, keep the cash memo to show how much you paid for it and when. As for jewellery you have to provide details like weight and design.
- In the case of glass, you have to prove that malafide intent and not your child slamming a ball into it caused the damage.

Schooling

With India gaining popularity globally, Mumbai, the financial capital, stands to gain a lot and this fact is clearly reflected in terms of education. Mumbai, today, is considered a desirable destination to pursue education and is a favoured educational destination among many nationalities. The schools and other educational institutions in Mumbai are either run by the government or by private organizations.

The medium of learning is usually English, Marathi or Hindi and these schools are affiliated to either the Indian Certificate of Secondary Education (ICSE) or the Central Board for Secondary Education (CBSE). Mumbai also has several international schools and preschools available, offering both British and American curriculum. The American school early childhood education centre has a program for three to five year olds.

Following are suggestions to assist you in making the best decision:

- Ask friends where they send their children and why.
- Call the schools you are interested in. Make an appointment to visit the school. Ask the admissions-in-charge to arrange for you to visit classrooms and speak with the teachers during your visit.
- Take time before the visit to list your priorities and questions.
- During the visit, be attentive to how the child's questions and behaviour are handled. What is the interaction between staff and your child? Is your child made to feel welcome?
- Inquire about the teacher/student ratio and the teachers' credentials and teaching experience.
- Inspect the facilities. Look at safety features and overall sanitary conditions. Are the toys and equipment age-appropriate and adequate?
- Ask for a complete list of all fees before you register. Registration fees and subsequent school fees are non-refundable.
- Ask about transportation vehicles. How old are the buses or vans? Do not hesitate to ask about occupancy numbers and supervision.
- Ask about meal plan facilities
- Educating your child in a foreign country can provide a wonderful exposure to many different cultures and be a rewarding experience for both you and your child.
